ELKHORN, MANITOBA, FEB. 23-1893.

IRISH HOME RULE BILL.

EVENTFUL DAY FOR IRELAND.

Build Granting self Government to the Jiriah Fresple lattredesed by Mr. Glodedons.

London, Febr. 13. Today the Irish Home Rule Bill was introduced by the Hom. Mr. Glodetone, the crowd in attendance being one of the largest ever seen in the building.

Glodestone ever seen in the building in Glodestone that the could not undertake to supply and greeted him with prolonged and enthusiagit cheers. When Jiriah bearers. He would rather seek to present the seed of the lift of the bill. (Cheero) He would not ask the patient indulgance of the Hoise whilst in the could not undertake to supply the Home Rule Bill was introduced by the seed of the could not undertake to supply the built was depressed in the built bearers. He would rather seek to present the season of the salient points hoping tellers a living impression. Home results bill; there was another demonstration of the seek reduced from S5 to see the reduced from S5 to the seek reduced from S5 to the

#### A MILL BONUS.

The Lippentott correspondent to the lipden Advance draws attention to the set, that there being no grist mill at Els-corn, it is nearly impossible for farmers the are not within reasonable distance of horn, it is nearly impossible for farmers who are not within reasonable distance of lytries, to get their grain ground in the winter, and this, of course, means grain close of money to the settlers in this district. Now in the year 1871, there was an agitation set on feot be secure a grist mill at this point, and it was proposed to grain a seaterntal bonus to any responsible man with sufficient capital who would come in and erect a mill sufficiently larger to esting the demand of the trade. The matter was brought up, and was voted down. Those who voted against themore the sufficient of the seater of bounding-industries that in themselves are highly remunerative, was unjust, and that new districts should be called upon to do so was immentable. The argument to do to was lamentable. The argu do so was lamentable. The argument as a strong one, and the consequence as, as we stated before, that the move ent was voted down. Now this took one six years goo, and, Sikhorn has no ill yet. As a writer at the time said — means that as a market town, Eikhorn a failure, it means that farmers will not able to find a market here for their probe able to find a market here for their pro-duces beyond a very lipdied quantity. It means that the wheat market remains in the hands of a giant monopoly. It means that we will never be more than a little one horse yillage of very little benefit our magnificent surrounding

one horse yilings of very little benefit to oper magnificent surrounding country, with little or no prosperity or growth. On the other hand it is very apparent that without a bonus we will get no mill. Other towns with natural advantages aqual to ours are offering substantial bonuses, and no same man will contend that capitalists will pass them by, and that capitalists will pass them by, and come here for nothing, it is not reasonable to expect it. There is no doubt that rea-pensible parties would come here and build a first class mill if a-bonus of, say, \$5,000 were given them when the mill is built and in running order. The advantages to be derived from har-tick feedure here, are too numerous

The advantages to be derived from having this industry, here, are too numerous to require mention in datall, and are apparent to any one. A market for wheat til the year round, a market for all clauses at produce, a growing town in which to trade, enhanced value of all property in the district, and a certain means of attracting new settlers, are a few of them. The taxalion, would be very light, and he meanty all caved by the reduced rate for grinding, which windle probably be given we the district.

printing, when want processy to given to the district.

It may be as well for relopayers to bear as mind that at this time the burden of asses is a very light one for them to carry, buildes the school tax is certain districts here is nothing whaterse to any except a small judicial tax, and therefore it is all he more reasonable to expect that rate-wires could hear the very small amount has dear preperty would be assessed for his bosus.

r careful consideration we are satis-at something of this sort should be foot, as necessary for our progress

wery one to waive their acruples and rock for the common@od.

We khall be pleased to receive communications from those interested in this saites, either in favor of or against our suppost, and in order that the matter suppost and in order that the matter suppost in the deserves, we would assumetly specially be to the suppost of the writter, as from personnibuservation we find that far mens notice takes when written thus, then when a mean fa blume" is taken.

PARMERS INSTITUTE MEETING.

Mr. Richard Wamph, of the "North West Farmer" addressed the Institute on Saturday, when a fair andience wis present. The chairman, Mr. W. Wood, gave out that the subject of the fecture would be, "Mired Farming," but Mr. Wamph is the cleaning of wicers and producing of the producing of the company of the c The farmers had bought experience in the sandt. The farmers had bought experience in the N. W. at high price, and were now only receiving a fair return for the experience gained. Wheat alone is one of the sankth things to raise without experience, as long as there is cash or credit to back it up, but as soon as these fare zone, wheat growing becomes difficult. The only perfect remedy for the wheat grower is mixed farming—farming mixed with skill and the help of providence. But if a faill earlier arms his wheat fields in an unscientific manner and finds it fail, neither will be able to make money at daterying or raise. and the help of providence. In all is farmer farms his wheat fields in an unscientific manner and finds it fall, neither will he able to make mosey at dairying our raising stock. He will fall at that. When mixed, farming is carried-on, the staple product must still be wheat. The agriculturist is Manitoba lost more by smut. In: 1881 and 1882 than by snything else. Mix Waugh then explained very minutely the growth of smut; showing very clearly that the sile as a fangue has and that it. Is yrown from: a spawn. He thought wheat should be thoroughly pickled in bluestine.—If the seed is very smutty, put 1 b to?—bushels of grain, if fairly clean, 1 b to 10 mushels with the week, and the week of the w

Drandon, Jap. 18th, 1860.

Dran Sin,

I have the honor by direction of the Executive of the Manitoba Central Farmer's Institute, to present a statement on the binder twine question, and respectively sak your institute to pass a resolution upon the same, and forward to me at the earliest possible date. A year ago the Brandon City E. D. Institute without discussion pissed the following resonation:

"That in the opinion of this Institute time have one when the duty on binder twine about by the duty on binder twine about by the time way of the control of the state of the limit of the duty on binder twine about by the duty of binder twine about by the duty of binder twine about by the duty of binder twine about the Cantral Institute be agived to pelition the Control Government re the same. Owing to the death of the late Secretary, this master-was not, presed upon the Government re the same.

twine should-be transved, and that the Contral Institute be saked to jestition the Dominion Government re the seame. Ownge to the death of the late Secretary, this matter was not pressed upon the Government, on the same of the same of

tions for 1893 show a reduction of partial of the Manila, 11-21 on Sandard Mixed of Pure Manila 690 10c. Standard Mixed 690 112 3c.

Canadian prices are withheld presum ably to swalt the action of the Governmen Canadian ship to avail the action of the Government ro dut, but granting that they make a roduction, similar to Americans on Blue Cap of 1 2c. per ib 600 would cost 134-5c as compared with Pure Manila 10c. or in other words Manitobs in not only sub-Cap of 11 2c. per ib 000 would cost 134-5c. as compared with Pure Manila 10c. or in other words Manilatobs is not only subjected to a duity of 23 per cent, but by using Canadian twine for 1803 crbp of say, 100,000 acres allowing 21.2 libs to the acre, she will pay 450,000 more for twine duity free. We may say that the Mational twine and about half the American Wine Cordage Company controls all the Canadian twine and about half the American. In the matter of the grading system grows. It has been suggested that grades be made permanent and clover, and that producers abould have equal representation on the Grain Standards Based. The Executive, also recommend that notice of each Institute meeting should be given to each sember by post, exad. A sample is here neclosed.

Patthfully-Yours.
R. A. LEECH.

stop the Mardi Gras masquensite at New Orleans. They are at it again and Shrove Tuesday-this sounth, will witness the regular lavish display of carnival diableri. Mobile precedent west of retensing this foolishness as far back as 1831, when the first parade of moving tableans took place, there; but since 1857 New Orleans has been the only city in this country where Mardi Gras festivities surpass those even of Florence and Bome The New Orleans people pride tilenselves upon this fact and have also found the large expenditure of money pipon

The people of Russia are more terribly afficied with the infirmity of blindness than any other people on the globe. It is said that there is an average of twenty-one blind-persons to-every 10,000 of population. In 1886, according to official features, there were 1895/72 totally blind people in European Russia, the Cuitassus and Poland. In Poland there are twenty-five blind men for every fourteen blind women, and the same percentage holds good over the most of Russia in Asia.

Since the introduction of electricity in the street valinous in the new to the introduction of electricity in the street valinous in thanks, and the United States, the industry of raising large horses in the eastern provinces is and to be disappearing, because there is no demand for this kind of horse. The change has reduced the prices of horses in Canada and has depressed financially many who were engaged in raising horses.

horses.

Since the burial of Mr. Blaine's body at Oak Hill cemetery, vandals and curiosity-seekers have turned out in such force that it has been necessary to place a guard at the grave in order to prevent it being stripped of the flowers placed upon it. Women are the chief offenders. All of the visitors are not of the same type, however, and many admirers of the dead statesman have brought floral tributes to be laid upon the grave.

be laid upon the grave.

If the legal ore of the Halifax Heraidize well founded, Mr. Whitney and his associates in the Nova Scotia coal deal will hereafter be likely to feel a new interest in-the good health and well-being of Queen Victoria. According to that sathority, the title of the province to the nather and minerals of Nova Scotia reverts to the crown eighteen months after the death of the retigning sovereign. That being the case, Mr. Whitney attle to the Cape Breton mines can be no better than that of the province, and, despite the long lesse granted him, it must expire within a year and a half after the Seath of the Queen.

The European—outlook for emigrants this year to the United States does not appear to be very encouraging, judging from recent despatches. There are at present some thousands of intending emigrants at Hamburg to whom British steamboat companies sold tickets, a charge on the public charities, whom they have refused to transport, owing to the stringent quarantine regulations of the United States government. Of course their passage moneys will be retuined but this will not have the effect of preventing much suffering and hardship to many of those unfortunate people, who had left their homes, and were a long out this will not never the electron pre-venting much suffering and hardship to many of those unfortunate people, who had left their homes, and were a long way on their journey to the States when stopped, finding themselves with their money spent and not enough left to take them, back to their respective homes It is thought that some twenty thousand emigrains from Russia, Austria and Hun-gary, will find themselves similarly stranded at German ports, unless prompt steps are faken to prevent their setting out from home. As an act of timmsnity apart from any other consideration action should be taken to put intending emigrants in possession of the fact-namely, the existence of the quarantine action should be taken to put intending emigrants in possession of the fact-namely, the existence of the quarantin enactment of the United Stafes govern ment, which shuts practically its doors t all emigrants for the time being. Not is Canada's opportunity to get her shar of the overplus population of older cour tries. Let her be up and doing.

Smugglers of whisky seem to be doing a roaring trade in the lower St. Lawrence. The barefaced and daring manner in which these "professionals" practice their "art." has caused no little awakening, and no small share of alarm to the Dominion customs authorities, the result being that a steam schooner has been withdrawn from her winter quarters and sent to do duty against these infringers of the custom laws. No doubt any she lays hands upon, will meet with the full penalty due to such an offence.

the full penalty due to such an offence.

The Pope has recently conferred the cardinal's hat upon Dr. Kopp, of Breslau and Dr. Kremerty, of Colegne, both of whom are Germans, and have gone to Rome to interview his holiness before assuming the duties of their new offices, on their return, Emperor William will give, it is stated, a state dinner, at which he cardinals and other leading clericallil be present, when the Emperor' will be present, when the Emperor' will is a likely some influence will be brought to bear on these prelates to induce the Roman Caltolic deputies to vote with the government condition, in the Reichsen et al. 2011.

Hushand—Because there was nothing to think about.

Wife "There you are again you men can never understand the simplest performance of women, you are elis, so stupid, it is no wonder that one of the speakers said it, was because made to keep company with him.

Hashand, (Exit scratching, his head)
"I never thought of that. I think man is decidedly foolish."

It has been decided to put a ne steamship next season on the rout between Montreal and Jamaica to-run in counsection with the fruit trad Two boats will be run regularly.
